

Jason J. Roberts

Marine Geospatial Ecology Lab, Duke University

jason.roberts@duke.edu
+1 (206) 619-2736

EDUCATION

Duke University

Durham, North Carolina

Master of Environmental Management, Coastal Environmental Management

2006

Certificate in Geospatial Analysis

Thesis: Separating Sea Turtles from Fisheries: Oceanographic Habitat Models of Olive Ridley Sea Turtles Encountered in the Eastern Tropical Pacific Purse Seine Tuna Fishery

Virginia Polytechnic Institute and State University (Virginia Tech)

Blacksburg, Virginia

Bachelor of Science, Computer Engineering and Philosophy (double major)

1996

RESEARCH EXPERIENCE

Marine Geospatial Ecology Lab, Duke University

Durham, North Carolina

Research Associate

2006-Present

- Led the development of Marine Geospatial Ecology Tools (MGET), an open-source collection of geoprocessing tools for marine ecology, implemented in Python, R, C++, and MATLAB. Between 2009 and 2015, MGET was installed over 6500 times in 118 countries.
- Coauthored studies of the spatial distribution, ecology, bycatch, conservation, and management of marine megavertebrates (cetaceans, sea turtles, sea birds, fish) using data derived from a variety of sources (line transect surveys, satellite telemetry, fisheries catch and bycatch records, and *in situ* collection)
- Developed and applied tools for modeling and predicting marine species distributions using multivariate statistical and machine learning methods
- Developed tools for detecting oceanographic features in remote sensing imagery, including fronts in sea surface temperature images and mesoscale eddies in sea surface height images, and utilized the results as predictors in species distribution studies
- Co-developed and applied tools for simulating the hydrodynamic dispersal of planktonic larvae by ocean currents, for the purpose of modeling connectivity between habitat patches such as coral reefs
- Assisted in the utilization of tools, oceanographic data, and biological data in international conservation planning processes, national regulatory processes, and conservation actions undertaken by industry

RELATED PROFESSIONAL EXPERIENCE

Microsoft Corporation

Redmond, Washington

Lead Software Design Engineer

1996-2003

- Co-architected the Windows Update service
 - Lead the design of the SOAP-based protocol used by Windows computers to efficiently and securely query the Windows Update service's database of updates
 - Lead the design of the core Windows Update XML and SQL database schemas
 - Collaborated with other architects on company-wide software distribution strategy
- Managed a team of five developers that implemented the Windows Update server-side components
- As an individual contributor, implemented various server and client components in the Microsoft Windows operating system and Microsoft Systems Management Server, programming in C, C++, C#, Visual Basic

AWARDS

- Special Achievement in GIS Award** 2012
For development of the Marine Geospatial Ecology Tools (MGET) toolbox
Environmental Systems Research Institute, Inc. (ESRI)
- Spatial Ecology and Telemetry Working Group Award** 2012
For providing “a spatial function, tool or service that has significantly enhanced the field of
wildlife conservation and management”
The Wildlife Society
- Lawrence W. I'Anson Memorial Scholarship** 2005
Duke University

PEER-REVIEWED PUBLICATIONS

Crochelet E, **Roberts J**, Lagabrielle E, Obura D, Chabanet P, Petit M (in review) A model-based assessment of reef larvae dispersal in the Western Indian Ocean reveals regional connectivity patterns - Potential implications for conservation policies. *Regional Studies in Marine Science*.

Mannocci L, **Roberts J**, Miller D, Halpin P (in review) Extrapolating cetacean densities to quantitatively assess human impacts on populations in the high seas. *Conservation Biology*.

Roberts JJ, Best BD, Mannocci L, Fujioka E, Halpin PN, Palka DL, Garrison LP, Mullin KD, Cole TVN, Khan CB, McLellan WM, Pabst DA, Lockhart GG (2016) Habitat-based cetacean density models for the U.S. Atlantic and Gulf of Mexico. *Scientific Reports* 6: 22615.

Wedding LM, Maxwell S, Hyrenbach D, Dunn DC, **Roberts JJ**, Briscoe D, Hines E, Halpin PN (2016) Geospatial approaches to support pelagic conservation planning and adaptive management. *Endangered Species Research* 30: 1-9.

Benedetti-Cecchi L, Canepa A, Fuentes V, Tamburello L, Purcell JE, Piraino S, **Roberts J**, Boero F, Halpin P (2015) Deterministic factors overwhelm stochastic environmental fluctuations as drivers of jellyfish outbreaks. *PLoS ONE* 10(10): e0141060.

Hsu AC, Boustany AM, **Roberts JJ**, Chang J-H, Halpin PN (2015) Tuna and swordfish catch in the U.S. northwest Atlantic longline fishery in relation to mesoscale eddies. *Fisheries Oceanography* 24(6): 508-520.

Schill SR, Raber GT, **Roberts JJ**, Treml EA, Brenner J, Halpin PN (2015) No reef is an island: Integrating coral reef connectivity data into the design of regional-scale marine protected area networks. *PLoS ONE* 10(12): e0144199.

Tamburello L, Maggi E, Benedetti-Cecchi L, Bellistri G, Rattray A, Ravaglioli C, Rindi L, **Roberts J**, Bulleri F (2015) Variation in the impact of non-native seaweeds along gradients of habitat degradation: a meta-analysis and an experimental test. *Oikos* 124: 1121-1131.

Treml EA, **Roberts J**, Halpin PN, Possingham HP, Riginos C (2015) The emergent geography of biophysical dispersal barriers across the Indo-West Pacific. *Diversity and Distributions* 21(4): 465-476.

PATENTS

Dehghan D, Reus E, Soy NR, Ma L, Shepard M, Hou J, Hennessey D, Thiruvillamalai V, Vidyasankar R, Sriram TR, **Roberts JJ**, Mohammed M, He X (2010) Update Distribution System Architecture and Method for Distributing Software. U.S. Patent 7,853,609, filed March 12, 2004, issued December 14, 2010.

Meulemans ME, Averbuch A, **Roberts J**, Showman K, Mohammed M, Dadzie JG (2009) System and Method for Managing and Communicating Software Updates. U.S. Patent 7,574,706, filed December 15, 2003, issued August 11, 2009.

Roberts J, Mohammed M, Wittel W, Shepard M (2009) Managing Software Updates and a Software Distribution Service. U.S. Patent 7,478,381, filed December 15, 2003, issued January 13, 2009.

WORKSHOPS LED

Spatial Models for Distance Sampling Data Using R and ArcGIS 4 day workshop at Duke University; co-instructed with David L. Miller	Durham, North Carolina 2015
Species Distribution Modeling with Marine Geospatial Ecology Tools (MGET) 1 day workshop at the University of Auckland	Auckland, New Zealand 2013
Species Distribution Modeling with Marine Geospatial Ecology Tools (MGET) 1 day workshop at the University of Otago	Dunedin, New Zealand 2013
Species Distribution Modeling with Marine Geospatial Ecology Tools (MGET) ½ day workshop at ESRI Headquarters	Redlands, California 2013
Habitat Modeling with Marine Geospatial Ecology Tools (MGET) 1 day workshop at California State University, Monterey Bay	Seaside, California 2012
Practical Ecological Modelling and Analysis for Coastal and Marine Management 3 day workshop at the Centre of Marine Sciences, University of Algarve	Faro, Portugal 2011
Census of Marine Life Mapping and Visualization Workshop 2 day workshop at Duke University	Durham, North Carolina 2009
Census of Marine Life Workshop on Desktop Analysis ½ day workshop as part of the Census of Marine Life Synthesis Workshops	Long Beach, California 2009
